

## *Greeneye Confidentiality Policy*

Latest update:

8/12/2011

Created:

28/3/2011

Greeneye is committed to authentic, independent and credible research. As part of our source data collection, we use publicly available data. Non-public information disclosed to Greeneye is used for the sole purpose of RI and CSR research, and only if it is not price sensitive data, and would be disclosed to any investor that requests it. Any relevant information on companies will be summarized and key aspects will be mentioned in order to contribute to a company's profile and research results. We do not distribute any document that was provided to Greeneye by a researched company to any third party. Information from confidential sources is required to be of the same relevance and quality as would be required from public sources. It is used in addition to public sources in order to maintain a high level of quality and independence.
